

ATTENTION BUSINESSES & RESIDENTS

On May 07, 2025, residences and businesses along Highway 93 from Cole Avenue to Southwic Avenue will be without water for an unknown period of time in order to repair the fire hydrant leak in front of the Marshal's Office.

The Town will start in the morning of May 07th to locate the leak. Once the leak is located, the water will be turned off and will remain off until the repair is done.

Some businesses and residences may not be affected by this depending on where they hookup to the Town's main water line.

We will make the repair as quickly as possible and notify everyone once the water is turned back on. If water is turned off for more than 4 hours, businesses who are affected by this and are licensed through the Department of Public Health and Human Services will need to cease all operations per the Ravalli County Environmental Health.

We are sorry for the inconvenience and appreciate everyone's patience during this time. If you have any questions, please call Town Hall at (406) 821-3753.

Thank you!!
